

C-SERIES

ALL IN ONE CLEANING DRONE

C10

The specialized industrial high pressure cleaning drone for inaccessible and complex surfaces

- △ Payload: high-pressure cleaning system
- △ Maximum height: up to 60 meters
- △ Flow rate: 900 L/h
- △ Pressure: 200 bar
- △ Designed for industrial and commercial cleaning
- △ Suitable for hard-to-reach areas
- △ Eliminates the need for cranes or scaffolding
- △ Reduces labor costs and safety risks
- △ Radar-based automatic cleaning distance control
- △ Rapid deployment for time-efficient cleaning
- △ Compatible with a variety of cleaning systems

S-SERIES

GRANULE AND SEED SPREADING MADE SIMPLE

S20

The compact and precise spreading drone for versatile agricultural tasks

- △ 20 L capacity
- △ 440 kg/h rate
- △ 3-7 m width
- △ 0.5-6 mm granules
- △ Automated flights
- △ No soil compaction
- △ Quick refill & battery swap
- △ Seeds, fertilizer & bait

S50

The high-capacity spreading drone for unmatched large-scale distribution

- △ 50 L capacity
- △ 1,100 kg/h rate
- △ 4-9 m width
- △ 0.5-6 mm granules
- △ ABS Sense LiDAR
- △ Automated flights
- △ Quick refill & battery swap
- △ Seeds, fertilizer & bait

L-SERIES

AGRI SOLUTIONS
PRECISE, POWERFUL, PROFITABLE

L10 V2

The world's most cost-efficient spraying drone

- ▲ Up to 10 ha/h performance
- ▲ Multi-beam LiDAR obstacle detection & smart terrain follow
- ▲ Extremely low operating and repair costs
- ▲ Convenient transport & single pilot operation
- ▲ Quick swap tank system
- ▲ Made in EU, CE certified
- ▲ Optional spreaders: granule & Trichogramma

L30 V2

Award-winning precision for ultimate agricultural efficiency

- ▲ Up to 21 ha/h performance
- ▲ Up to 2.4 ha/flight
- ▲ ABS Sense: advanced LiDAR obstacle avoidance & terrain follow
- ▲ Low operating costs: ~1.2 EUR/ha
- ▲ Made in EU, CE certified
- ▲ Optional granule spreader

L50

Europe's most efficient field spraying drone

- ▲ Higher capacity: 50-liter spraying tank
- ▲ Maximum performance: up to 25 ha/h
- ▲ Up to 5 ha/flight
- ▲ Higher flow rate: 16 L/min
- ▲ Compatibility: 70-liter seeder & spreading system
- ▲ EU quality, CE-certified

L-SERIES

AGRI SOLUTIONS
PRECISE, POWERFUL, PROFITABLE

M-SERIES

LIMITLESS OPPORTUNITIES

M12

The world's biggest payload capacity
CE certified customizable drone

- ▲ Payload up to 12 kg
- ▲ 15-50 min flight time (depending on load)
- ▲ Multiple power outputs (12V, 24V, 5V, battery)
- ▲ I2C, UART, CAN, USB ports
- ▲ Foldable frame, versatile payload mounting
- ▲ CE certified, C4 labeled
- ▲ Open-source software for R&D and custom use
- ▲ Cost-effective maintenance

M40

The ultimate customizable drone for heavy-duty industrial and R&D solutions

- ▲ Up to 40 kg payload
- ▲ 15-40 min flight time
- ▲ Foldable frame
- ▲ Multiple payload options
- ▲ Open-source, CE certified
